About

A self-taught web application developer who is been practicing in the industry for past 11 years. I've studied Computer Science and Engineering and a successful dropout. Also a LICT certified web developer. I've worked on freelancing platforms like Upwork and Freelancer, and currently working on Fiverr since 2016.

I have completed 199 projects on fiverr counting with all 5-star reviews. I've also designed and developed about 300+ websites for clients outside freelancing platforms.

I've working experiences on different websites like ecommerce, real estate, fitness, gym, blog, business, educational, food, restaurant, bar, drop shipping, medical, amazon affiliate, musician portfolio, photographer portfolio, tattoo parlor, plumbing and others.

I always value my client's business and take projects seriously. My clients find me easy to work with, communicate and helpful. I have a reputation among my clients for providing 100% completed work, satisfaction, providing free tutorials, and free consultation.

I've worked with the brands like Sonic Relief, Beatclouds, Engeenuity, Ways to Market, Wilton Wings, Bellezini and Myszak and Partners.
